

André de Mattos

Data & Analytics Manager

I help senior leadership deploy a data-driven culture, leading complex data initiatives from concept to delivery — ensuring quality, scalability, clear communication across teams, and measurable business impact.

EXPERIENCE — nine years across banking, industrial and public-sector analytics

Manager, Data & Analytics

Jun 2025 — Present

Grupo Qaracter Consulting — Madrid, Spain

- Managed and expanded the Business Intelligence consulting service to €600K in annual revenue.
- Part-time at BBVA: BI advisor on product development for Global Transactional Banking; built operational dashboards on GCP (Data Studio, BigQuery).
- Part-time for Oracle LS: built an E2E pipeline on Azure from vendor SFTP drops to templated reports with masked PII.
- Authored technical proposals for public-sector tenders, securing new client contracts in Mexico and Spain.

Senior Business Intelligence Consultant

Aug 2023 — May 2025

BNP Paribas (via Grupo Qaracter) — Madrid, Spain

- Led multidisciplinary, multicultural teams through agile delivery cycles; implemented CI/CD to streamline delivery.
- Administered Alteryx, Tableau and Power BI server environments across Corporate & Investment Banking (CIB).
- Reduced processing time of a critical data pipeline by 65% by removing intermediary outputs and restructuring data joins.

Business Intelligence Consultant

Jun 2022 — Jul 2023

BNP Paribas (via Grupo Qaracter) — Madrid, Spain

- Built financial reports for the Country CFO office, averaging 2K quarterly views.
- Presented roadmap and usage statistics to C-level audiences in SteerCo meetings.
- Handled high-complexity requirements: multiple data source connections, row-level security, sensitive data governance.

Business Intelligence Analyst, Supply Chain

Jul 2020 — Apr 2021

Aker Solutions — Curitiba, Brazil

- Built analytics apps to track supplier delivery delays, helping recover more than R\$6M in financial impact.
- Led Supply Chain digitization under the 2021 'Digital Journey' program (Six Sigma/DMAIC), saving over R\$2M.

Jr. Business Intelligence Analyst, Procurement

Aug 2018 — Jul 2020

Aker Solutions — Curitiba, Brazil

- Built a Procurement & Logistics KPI cockpit (OTIF, lead time, spend, inventory turnover) from SAP data.

EDUCATION

Data Science Bootcamp <i>ID Digital School, Madrid, Spain — 432 hours</i> - Built an NLP/ML job-recommender system ranking 18K+ scraped EU job listings.	2021
B.Eng. Industrial Engineering <i>PUCPR, Curitiba, Brazil</i>	2018
Computer Networks, Exchange Year <i>Halmstad University, Sweden</i> - Science without Borders scholarship, Brazilian Federal Government.	2016
